Subject :- Syrian Orphanage
Schneller Quarter,
Jerusalem.

I append an extract from a letter dated the 11th of September, 1930, from Dr. T.Schneller, Director of the Syrian Orphanage, andask that I may be furnished with your opinion as to whether this Institution is in a position to accept additional pupils without overcrowding.

" We had here in our Orphanage before the holidays of the school 279 pupils, (159 school-boys, 56 girls, 18 scholars of our training college, 9 blind boys and 4 blind girls, 33 apprentices) and 22 journey-men; 8 school masters 5 educators and overseers and 10 work-masters.

Applications are frequently received from this and similar institutions for the admission of students etc., which, provided they are in accordance with the Immigration Ordinance are usually granted.

As a matter of principle it is questionable whether there is not a maximum number of inmates above which from the point of view of space, financial ability, for maintenance etc., etc., permission should not be granted.

You will appreciate that if there is no cooperation between your Department and this Section it is possible that permission may be granted by me in certain cases which might prove an embarrasment to an attempt on your part to improve conditions.

There are a number of orphans at the Schneller Orphanage who have been admitted to Palestine as travellers or who have entered without permission and without any travel documents. Dear Sir;

I beg to forward enclosed with the present a nominal roll of pupils in our Orphanage that have come from abroad (chiefly from Egypt and Syria). It comprises two separate lists, one with the names of holders of passports, and the other with those of pupils that are not provided with such.

The latter entered the country without passports. As the whole of these children are destitute, our Orphanage has undertaken to provide the necessary funds for their maintenance. The Orphanage is, however, unable, to see its way to pay the immigration fees due to your department, and I beg therefore to request that in the circumstances the payment of these may be excused.

I remain, Sir,

Yours respectfully,

Subject:- The Syrian Orphanage.
Reference your JM/S/567 of June 15th.

The Syrian Orphanage was founded in 1860 by the father of the present Pastor, and is managed by a Board at Cologne, with members in America, Switzerland, Sweden and Denmark.

The Institution is Protestant, but is not strongly missionary and is open to children of all religions. Some Jewish Orphans were housed at one time, but have since left. The Moslem orphans are now at the Moslem Orphanage.

The funds needed for the upkeep of the Orphanage (£E. 24 per child per year) were formerly obtained from all Protestant countries. At present the Near East Relief provides nearly the whole of the support, the Government paying for some ninety children previously in the Government Orphanage, Bethlehem.

At present there are some three hundred boys and a hundred girls in the Orphanage, including thirty five blind children . The youngest are six, the eldest eighteen. The majority are Palestinian Christians, the remainder being Greek or Armenians. There were many more Armenians immediately after the war.

There are twelve teachers for the school, and nine instructors for the Technical Department, where the orphans are taught the following trades: Printing, Carpentry, Tailoring, Shoe-making, Potter's work, Blacksmithing and Basket and Rope work(for the Blind children). The language of instruction was formerly German and is now Arabic; English is also taught.

Before the war, agriculture was taught at the Bir-Salem Farms, but has not been restarted as the farm buildings are still occupied by the Troops.
